

**ROCKPORT**

A wide range of moulded doors in smooth and wood grain finish in a huge choice of styles and sizes. Doors are available in standard hollowcore construction, as fire doors, and in middleweight and heavyweight cores.

**ASTON**

These high quality, internal doors are manufactured from engineered components for improved stability and are faced with oak veneers for a superb, luxurious finish. Raised and fielded panels are manufactured from veneered medium-density fibre board.

**EVERSHAM**

The range of pine doors are carefully selected from high quality materials. All doors are FSC approved with the timber used in their manufacture being sourced from forests which are well managed.

**CLEAR PINE**

The range of pine doors are carefully selected from high quality materials. All doors are FSC approved with the timber used in their manufacture being sourced from forests which are well managed.

**OAK FOIL**

This range of doors is manufactured to a high quality in 3 popular foil veneer finishes. The manufacturing technique provides a consistent colour to the door, unlike natural veneer, therefore there is no colour matching required.
