

ROBERT PRICE

Environmental Policy

As distributors of building and timber products for use in the construction industry we recognise our responsibility to the environment and will promote good environmental practice by all our staff.

We aim to minimise the extent of environmental damage occurring as a result of our activities whilst fully complying with all relevant statutory regulations.

Directors are responsible for ensuring sufficient personnel and financial resources are made available, monitoring progress against environmental targets and co-ordinating overall implementation of our policy. Branch Managers and Department Heads are responsible for management of environmental obligations and performance and for achieving progress against agreed targets. All Employees are responsible for ensuring high standards of environmental care.

We will work to reduce our carbon footprint by:

- Complying fully with all relevant environmental legislation and other statutory requirements as a minimum standard.
- Continually developing our Environmental Management System (EMS).
- Planning and undertaking our operations so as to minimise our/the impact on the local environment.
- Seeking to minimise the risk of pollution as a result of our operations, through staff training.
- Seeking to minimise energy use in the day to day running of our business through energy saving initiatives.
- Reducing, reusing and recycling waste.
- Maintaining Chain of Custody certification to prove that our timber products are from legal and where possible, from sustainable sources.
- Raising the awareness of our staff of environmental issues.
- Endeavouring to raise our customers' awareness of sustainable building materials and practices which could help them to save energy.
- Making our policy available to the public.

Through the above we will continually seek to improve our environmental performance.

Our Policy will be reviewed and updated at regular intervals.

Dated 3rd November 2010

Signed..... *Tessa Pike*.....
