SERVICES

Stock:

Robert Price Builders' Merchants hold a comprehensive range of hard landscaping materials and accessories in all our general merchant branches for immediate collection or delivery on a date to suit. In addition to the products shown in this catalogue, we can order alternative ranges, colours or sizes for quick delivery from the supplier, whether to one of our branches or to your site.

Advice:

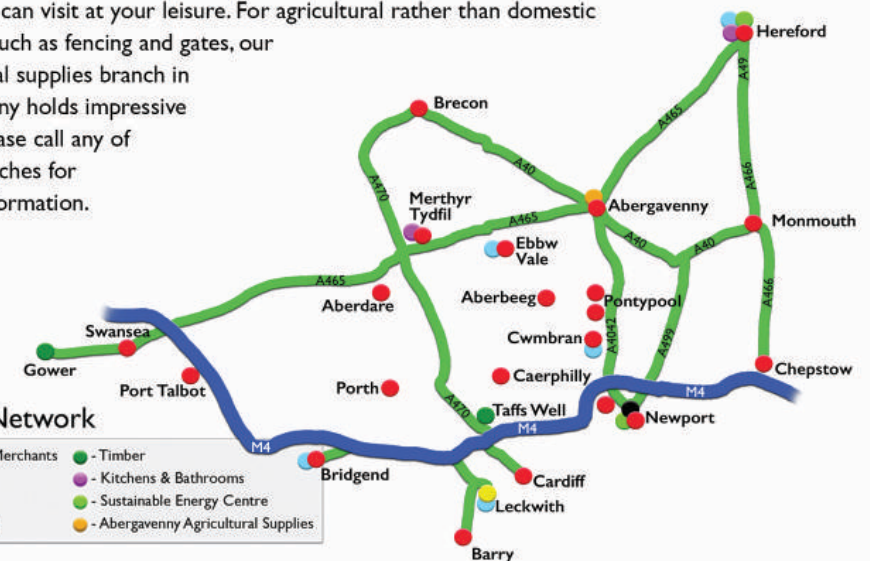

Our staff have excellent product knowledge and will be pleased to discuss your project with you, to ensure you are ordering the correct items and the correct accessories or tools to make installation as easy as possible. For technical queries, our staff can also call on the manufacturers' technical team to provide any additional information you may require.

Specialist Branches:

Our specialist branches are able to supply materials that may not be held in every general merchant branch. Our timber specialist branches in Cardiff (Taffs Well), and the Gower hold extensive stocks of timber and associated products and have milling, cutting and treatment facilities. Our landscaping department in Tudors Hereford, has a large display of sheds and timber buildings which you can visit at your leisure. For agricultural rather than domestic products such as fencing and gates, our Agricultural supplies branch in Abergavenny holds impressive stocks. Please call any of these branches for further information.

PAVIORS

A high-quality driveway or patio can instantly improve the visual appeal of your home, creating a much more striking impression from the front of your house or providing a perfect environment in which you can relax or entertain guests in the garden.

50mm textured blocks offer a practical, longer lasting alternative to resin or asphalt products.

In comparison to other surfacing options, block paving is particularly environmentally friendly due to its porous nature. This means block paving provides an area for water to rest during rainy seasons. You will not notice surface water on your paving, as it will be drawn in by material. However it will prevent the water from gathering or flooding, allowing you to create better drainage on your driveway or patio.

488 units / pack provides 9.76m² coverage

EASYClick

- A revolutionary new way to create patios, paths and driveways
- A synthetic sub-base alternative to traditional methods
- It reduces the time, labour costs of an installation
- A lightweight, simple interlocking system; easy to transport and ideal for areas with restricted access
- Manufactured from 100% recycled ABS plastic. Any unused off cuts can then be fully recycled.
- Ideal for porcelain and block paving

FGO12500 AZPECTS EASYCLICK PATIO BASE (1m² pack) SYNTHETIC SUB BASE ALTERNATIVE 6310

EASYTileAlign

- EASY TileAlign is quick and convenient. It is suitable for calibrated paving installation methods, or for use with Aspects revolutionary EASYClickBase system.
- Ensures that a smooth, even surface is achieved on calibrated natural stone, ceramic or porcelain tiles.
- Easy to use levelling system that incorporates the following: tile spacers, levelling caps and anti-friction shields.
- After use, the levelling caps and shields can be reused from job to job.

EASYAdhesive

- Specially formulated modified sealer adhesive for bonding and sealing
- Long lasting. EASYAdhesive retains elasticity, maximum movement capacity of 25%
- Versatile for inside and outside applications. Excellent working and adhesion properties on many surfaces, even moist ones, without primer
- Easy to use. Simply glue, seal and install practically anything with a single product

FGO12900 AZPECTS EASYADHESIVE ECB MODIFIED SEALER ADHESIVE FOR BONDING & SEALING 400ml 6615

WALLING PANELS

Wildstone real stone panels create an authentic real stone walling façade. They are made from split faced real stone and offer lightweight Z shaped panels designed for quick, easy installation on any surface

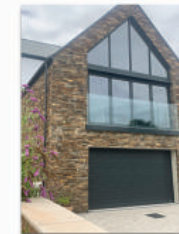

Three different styles are available:

Alpine Blend - a balanced mixture of pale and deep greys made from split faced real stone.

Carbon - Large sections of real slate provide a striking appearance.

Devon Slate - a mixture of earthy tones and greys hinting at metallic ores.

A full range of fixing accessories and adhesive is available.

DECORATIVE AGGREGATES

Pink Ice 14mm - 20mm

Black Ice Polar 20mm

One of the easiest ways to add variations and interest to your garden is by using decorative aggregates for garden decoration.

Create the Pathway

Pathways made of decorative aggregates can add colour and texture without the formality of paving.

Create Boundaries

Create boundaries within your garden to determine different spots for different activities, decorative garden stones can be used.

Use on the Plant Pots and Flower Beds

Decorative aggregates are widely used on flower beds and plant pots. You can create intriguing effects with aggregates in different sizes and colours.

the complete decking system

COMPOSITE DECKING

Heritage Welsh Slate

Heritage Cornish Pebble

Composite decking is ideal for those looking for a long lasting, low maintenance system with a uniform modern finish.

EcoDek is made from 95% recycled materials and is designed and manufactured in the UK. These solid boards come with a 25 year warranty and will not splinter, rot or split. With no need to sand or treat, composite decking is low maintenance and easy to clean. It has a high slip resistance and the solid construction is superior to hollow board alternatives. Colour co-ordinated fixings are available.

Building a Raised Bed

Raised beds can be made in any shape or size to suit your plot. The most common shape is rectangular as below:

Use two 150mm timber screws at each corner to attach the sleepers together. 50mm of the length of the screw needs to drill into the adjoining sleeper to create a solid connection. If desired, you can add additional layers to create more height. If you are proposing to use your raised bed for vegetables, it is not recommended to use reclaimed sleepers, as these may have been treated with chemicals not suitable for a food growing environment. Modern treatments used on new sleepers are much better for this purpose.

GATES

We have a wide range of gates; pedestrian, garden, rural and agricultural. Many are held in stock and others are available to order from our warehouse or direct from our suppliers. Just ask in your local branch and they will talk you through the ranges available.

We stock a comprehensive range of ironmongery including hinges, latches, hasp & staples, bolts and springs. Our staff will be pleased to help ensure you purchase exactly what you need.

GARDEN SHEDS & CABINS

We offer a wide variety of garden buildings and sheds, ordered on demand to the dimensions you specify. Please call our Cardiff Timber branch on 02920 811681 or Tudors Hereford on 01432 262821 for further information and advice.
